# eID (EDIUS ID) registration
for Grass Valley EDIUS Pro 9

EDIUS 9 uses the EDIUS ID (eID) registration – like EDIUS 8 and Mync.
Your eID is linked to your serial numbers and helps you to keep track of the status of your product activations.
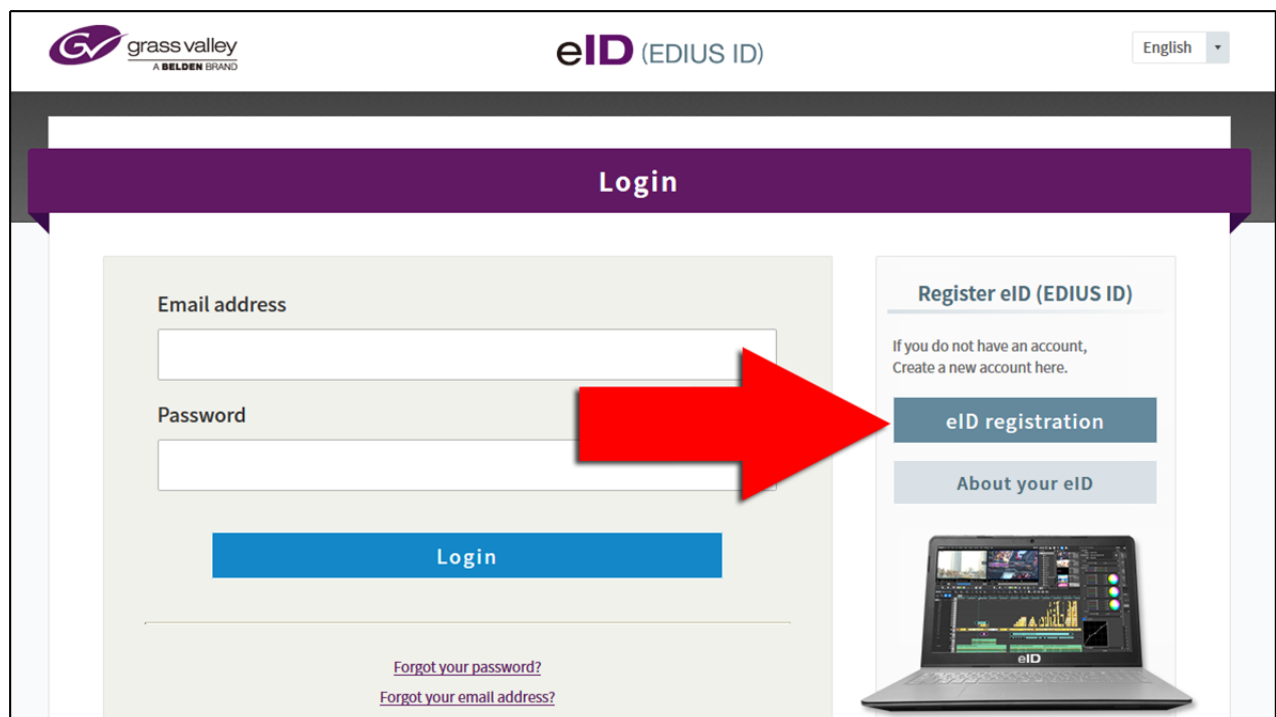

Before you can activate your EDIUS 9 version, you will first be asked to enter an eID. If you already have an eID from the activation of EDIUS 8 or Mync, you can simply enter that eID. If you do not have an eID yet, please create one. Here we explain step by step how to do it. An eID consists of an e-mail address and a password.

When you start EDIUS for the first time after installation, the following window will pop up.

1. Click on the **[Create eID]** button.

2. To register an eID for the first time click on the **[eID registration]** button on the right hand side.

3. Enter your e-mail address.

4. Agree to the terms and conditions of the privacy policy and click on the **[Send]** button.

A temporary registration confirmation will be sent to you by e-mail to verify your e-mail address. If you have not received any e-mail please check your spam folder.

5. Click on the registration procedure URL link in the e-mail to continue with the registration.

    The e-mail looks like this:

    ===============
    Preliminary registration confirmation
    ===============

    Thank you for creating an eID. We have received your preliminary registration. Please click the following URL link within 48 hours to complete this registration.
    You cannot use the eID until you complete this registration.

    ■Registration procedure URL
    https://ediusid1.grassvalley.com/regist/entry/?h=XXXXXXXXX

    Precautions:
    · This URL is valid for 48 hours from the time of this email. Your registration will become invalid if you do not complete the procedures within 48 hours.
    · Until the registration is completed, the registration remains preliminary and the eID cannot be used.
    · This email is sent as a result of you creating an eID. If you were not expecting this, do not complete the rest of the registration procedure. If you have already accidentally completed the registration, contact our support center.
    · This email was sent from an email address used only for sending messages. Please be aware that we cannot respond to replies sent to this address.

    Thank you for your continued support for Grass Valley products.

Registration

Back to start

8. The eID registration is now completed. A confirmation is also sent to you by e-mail.

Registration completed

EDIUS ID registration steps

| Enter e-mail address | Temporary registration | Registration | Confirm registration | Registration completed |

Registration completed

Registration of EDIUS ID is completed.
EDIUS ID is required when using EDIUS so please keep it in a safe place.
Registered information can be checked on My page.

My page

9. You can now use EDIUS 9 with your registered e-mail address and password. The e-mail address and the password combination is your eID.

Type in your e-mail address in the field „E-mail", and your password in the field „Password".

Next you will be asked to type in your EDIUS 9 serial number or in case of an upgrade also the serial number of the previous EDIUS version. Now you can start working with EDIUS.

To view the status of your EDIUS license activations please log in with your e-mail address and password online on https://ediusid1.grassvalley.com. You can also always check your given information and make any amendments thereto by clicking on this link.

For further information and support please get in touch with your EDIUS reseller or visit www.edius.net.
